X-25	50 pcs. Mix	10 ea. Color	pop box

All artwork must be submitted ready to print as is. We will make our best attempt to center the image on the key float unless otherwise indicated. We only accept High resolution AI, EPS and PDF files. We need your file to have been created in Adobe Illustrator (or another drawing program) and saved as an EPS or AI or JPEG file. All fonts must be saved as "Outlines". Files created in Photoshop or taken off the internet (rasterized) will print with jagged edges on all sides of the graphics. If we do not have a vector file (made from shapes) we will have to regenerate the artwork at a \$60 fee. All files must be one color setup. No dropshadows, outlines or fades. If your artwork is wrong and you sign off on the proof then your Key float will print wrong. What you submit is what we print.
